WATCH YOUR LIFE IN HIGH DEFINITION

High Definition Media Player with Ethernet & Wi-Fi Network Connectivity

KiSS DP-600
KiSS DP-608

It's not just about playing DVDs

Introducing KiSS High Definition Media Players

The future of Home Entertainment: KiSS DP-600 and KiSS DP-608

Stunning High Definition video

Sharper, clearer images that will bring your TV or plasma screen to life.

Unlimited Video-on-Demand and IP TV

Enjoy endless entertainment possibilities: music, movies, news, sports, and more, with access to an ever-expanding global entertainment network.*

KiSS Online Services for work and play

Find out exactly what's on TV, tune to thousands of radio stations, check global weather forecasts and get your daily stock market fix.**

Your PC's perfect partner

Directly access all your favorite audio, video and picture files from your PC – and see them on your TV, plasma or widescreen. No more burning disks.***

The wonders of Wi-Fi

The built-in wireless connection allows you to stream to your living room, kitchen, office, bedrooms or anywhere else in your home.

Space available

Use the built-in Hard Disk of the KiSS DP-608 to save any multimedia content. Access it directly from your PC with Windows Media Connect.

* Only available in some countries

** Requires a Broadband Internet Connection

*** KiSS PC-Link requires a PC with Windows XP. A Macintosh-compatible version is available for download on the KiSS website

Cutting-edge capabilities

For visually astonishing, non-stop entertainment

A MIND-BLOWING VIEWING EXPERIENCE

Setting the standard for high definition media players, the KiSS DP-600 and DP-608 bring brilliant color and clarity to your home movies and photos. High definition video looks sharper and clearer than regular video on any TV, plasma and wide-screen screens. So plug the player into your home entertainment system to transform your living room into a state-of-the-art home cinema.

View stunning slideshows, movies and artwork from the comfort of your sofa – no more crowding around your PC monitor.

A VIDEO STORE AT YOUR FINGERTIPS

Video-on-Demand is the technology that allows you to order Hollywood movies, exactly when you want to watch them. So you're not on anyone else's time schedule and you're still in total control of your film. You can fast-forward, rewind or pause at any time, just like using a video or DVD player. The possibilities are endless. And don't forget live sporting events and concerts. Avoid all the crowds and order them with a click of your remote!

Connect to KiSS Online to find out if Video-on-Demand is available in your area.

EXPAND YOUR VIEWING OPTIONS

IP (Internet Protocol) Television gives you access to TV from every corner of the planet, and more control of Internet TV with instant service activation, real-time television and on-demand controls.

Plug your DP-600 or DP-608 into the Internet to stream thousands of international channels, personal media channels, anywhere TV extensions and more. Stay on top of all the latest news, weather, sports and entertainment – from your desktop, TV or anywhere else in your home.

MAXIMUM FLEXIBILITY

Play absolutely everything in your library. KiSS DP-600 and DP-608 play all media formats including DVDs, CDs, Windows Media 9, Nero Digital, DivX High Definition, MPEG-1,2,4, XviD, MP3, Ogg Vorbis, Jpeg and PNG Picture files.

Featuring playback for Nero Digital Format, we have included all of your encoding software: Nero ShowTime 2-CE, Recode 2-CE and MediaHome CE.

GET CONNECTED HASSLE-FREE

You'll get your data quickly and easily, no matter

what type of connection you use. The KiSS DP-600 and DP-608 use Ethernet 10/100 technology to send data instantly from the Internet or a connected player. The built-in Wi-Fi connection uses 802.11g standard, enabling video streaming over a fast and secure network.

Setting up your connection is straightforward and doesn't require any special computer knowledge.

TOTAL ACCESS

No more burning endless disks. Share everything on your PC with your home entertainment network. KiSS PC-link is software that lets you connect your DP-600 or DP-608 to any Windows PC, quickly and easily.

So you can see all of your audio, video and picture files on any TV in your home. You can also transfer files from your PC's hard disk to your DP-608 hard disk.

FREE UPGRADES

It's easy to install and even easier to use. Designed with future growth and scalability in mind, your player is fully upgradeable with free online downloads from KiSS. So technology will never outrun your machine.

KiSS Online – all the extras

The world at your fingertips

KiSS Online Portal

By hooking up your Player to a Broadband Internet connection, you can access countless online extras for fun and convenience.

Online Electronic Program Guide

Check all the latest TV programs directly on your TV screen. Click on a program to read details and even create a personal favorites list.
